

Farmingdale School Board of Education
PARENT/GUARDIAN EXPECTATIONS
SYMPTOM-FREE COVID-19

It is vitally important that we take every precaution to support the safe return of our students to in-person learning. Accordingly, in addition to the health and safety measures being taken by the district within our school building, parents have a specific role to play in ensuring that child(ren) who are physically attending school are not sent to school if they are exhibiting any of the following symptoms of COVID-19.

Individuals with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. People with the following symptoms may have COVID-19:

- Fever (100.4 or higher) or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

This list does not include all possible symptoms. CDC will continue to update this list as it learns more about COVID-19.

As a Parent/guardian of a Farmingdale student(s), you are expected to check for these symptoms on a daily basis prior to sending your child(ren) to school each day. You must also immediately inform the District should any of these symptoms be present.

Thank you for your cooperation in our efforts to provide a successful year for our entire school community. Should you have any questions, please contact Mrs. Katy Kokolus, School Nurse, at katy.kokolus@farmingdaleschool.com.
