

girls who CODE

Girls Who Code Clubs are **free** after-school programs for 3rd-5th graders to join a group of supportive peers and role models using computer science to change the world. Learn more below!

Why Girls Who Code Clubs?

The Problem: Computing is where the jobs are – and where they will be in the future – but our girls are being left behind.

Our Impact

Girls Who Code values diversity, equity and inclusion, which are essential to our mission. We focus our work not only on gender diversity but also on young women who are historically underrepresented in computer science fields.

All students in 3rd- 5th grade are invited. See the attached schedule of upcoming meetings. Please return this slip by March 25th to Ms. Massa if you are interested.
