

# girls who CODE

**Girls Who Code Clubs** are **free** after-school programs for 6th-8th graders to join a group of supportive peers and role models using computer science to change the world. Learn more below!

## **Why Girls Who Code Clubs?**

The Problem: Computing is where the jobs are – and where they will be in the future – but our girls are being left behind.

## **Our Impact**

Girls Who Code values diversity, equity and inclusion, which are essential to our mission. We focus our work not only on gender diversity but also on young women who are historically underrepresented in computer science fields.

**All students** in 6th-8th grade are invited. See the attached schedule of upcoming meetings. Please return this slip by December 11th to Ms. Massa if you are interested.
