

## Reading Response Choices

1. *Did reading this book make you look at anything in a new way? What was it? Explain using specific quotes or examples from the text.*
2. *Which characters change the most in the book? Give specific examples of how they change and what causes them to change.*
3. *Where in the book did the author describe something really well? What did you specifically like about the description? Use a quote or an example.*
4. *What feelings and thoughts did you experience as you read this book? Explain and cite (quote) what caused your feelings or thoughts?*
5. *Whose point of view does the author tell the story through? Give examples from the text that show your reader the point of view and what you thought about it.*
6. *How is this book like another book you have read? Compare it to another book using examples from both books.*
7. *How is this book different from other books you have read? Compare it to another book that was different by using examples from the text.*
8. *What was the problem in the story and how was it resolved. Explain using details from the text.*
9. *Does this setting remind you of a place you know? How are the two places alike? How are they different? Use specific examples of each.*
10. *Give an example of how this book made you look up some additional information to deepen your understanding of the story. (A time you looked up a word you didn't know or an event or time period mentioned in the book).*
11. *What connections did this book allow you to make with a movie or television show you have seen? Explain in detail.*
12. *Describe a place where the text took an unexpected turn or took you by surprise. Be specific.*

13. *What would you describe as the theme of this book? Give specific examples from the text that caused you to arrive at this theme or big idea.*
  14. *Describe an example in the text that caused you to make a connection to your own life or experience. Add specific details of both.*
  15. *Describe an example in the text that caused you to make a connection between the book and something that is going on in the world now.*
  16. *If you are wondering why something happened in the text, what specifically made your wonder? What do you think could possibly happen?*
  17. *Explain why you think a character acted a particular way. Give reasons why you think he or she did.*
  18. *What is the mood of the story? What feeling does the story produce in you as you read it? Give examples from the text.*
  19. *What would a character in your book have in his or her backpack? Give specific reasons and examples as to why they would carry these items.*
  20. *You have twenty dollars to buy a present for a character in your book. What will you buy and why did you choose it? Give examples from the text.*

The Horse and His Boy

Relating with Schema

CS Lewis

T

Example

I can relate with Shasta because Shasta has no experience with riding a horse so he falls a lot. But when I started riding a horse, I didn't fall too much until my huge horse when into a canter, or a really fast horse skip so the saddle went side ways with me and I just fell. So I know how it feels to fall off a horse.

Theme Shortwrite

CW  
5-6-16

I think the theme for Missing May is Responsibility because when May died, Summer had to take care of Ob. When May died, Ob was really depressed and wouldn't get out of bed. Summer had to take responsibility, and make Ob breakfast, and take care of Ob's emotional state. This left Summer with "May's work".

Example

# How Does Setting affect the Tone + Mood?

aw  
5-25-16  
Setting

Example

In the book The View from Saturday by E.L. Konigsburg, the point of view of chapter 3 is a boy named Ethan Potter and he went to a tea party. The tone of chapter 3 is happy because the 4 friends made a club called "The Souls" at the Shillington house. The Shillington house is one of the members of "The Souls" lives <sup>where</sup>. The mood for me is inviting because the member who lives at the house is very nice and the house seems like a nice place to live and it seems inviting to other visitors.

*Summer math!!*

1. During the 2008 Summer Olympics in Beijing, Poland won 10 medals. France won 4 times as many medals as Poland.

How many medals did France win?

- A 14
- B 40
- C 44
- D 400

2. Which shape below has only 1 line of symmetry?

Square

Pentagon

Rectangle

Triangle

- A Square
- B Pentagon
- C Rectangle
- D Triangle

3. What is the difference of  $\frac{4}{8} - \frac{3}{8}$ ?

- A  $\frac{7}{8}$
- B  $\frac{7}{16}$
- C  $\frac{12}{16}$
- D  $\frac{1}{8}$

4. A skyscraper has 412 windows. A window washer cleaned 285. How can he find the number of windows left to clean?

- A Multiply 412 by 16.
  - B Multiply 285 by 412.
  - C Subtract 285 from 412.
  - D Add 412 to 285.
5. Nadia burned 56 calories practicing martial arts. She burned 8 calories each minute.

Which number sentence can be used to find how many minutes Nadia practiced martial arts?

- A  $56 \div 8 = \square$
- B  $56 - 8 = \square$
- C  $56 + 8 = \square$
- D  $56 \times 8 = \square$

6. The American flag has 50 white stars and 13 red and white stripes. In a parade, 17 people are waving small American flags as they march by. How many stars are on the flags in all?

- A 221
- B 650
- C 850
- D 945

7. What decimal is shown in the grid below?

- A 2.47
- B 1.74
- C 1.47
- D 1.04

8. Lawrence spent \$310 on 5 equally-priced model trains. Which number sentence shows the amount he spent for each train?

- A  $\$300 \div 5 = \$60$
- B  $\$310 \div 5 = \$62$
- C  $5 \times \$310 = \$1,860$
- D  $5 \times \$300 = \$1,500$

9. Kevin measured that it was 45 feet from the door of his classroom to the principal's office. What is that distance in yards?

- A 3 yards
- B 15 yards
- C 42 yards
- D 135 yards

10. Andy jumped 1.2 meters in a track contest. Which point on the number line below represents the number 1.2?

- A R
- B S
- C T
- D U

11. Kelly's class collected 3,129 pennies in 7 months. If they collected the same number of pennies each month, how many pennies did they collect in one month?

- A 304 R1
- B 407
- C 432 R5
- D 447

12. Wanda painted  $\frac{2}{8}$  of a poster. Which number should go in the box to make another fraction that is equivalent to  $\frac{2}{8}$ ?

$$\frac{2}{8} = \frac{1}{\square}$$

- A 2  
B 4  
C 6  
D 16
13. The Singapore Flyer, in China, is one of the world's largest Ferris wheels. There are 28 cars on the Ferris wheel and each car can hold 28 passengers. About how many passengers can ride the Ferris wheel at one time?
- A 60  
B 400  
C 625  
D 900
14. Which fraction is **NOT** equivalent to the shaded area of the rectangle?

- A  $\frac{1}{2}$   
B  $\frac{3}{5}$   
C  $\frac{6}{10}$   
D  $\frac{60}{100}$

15. Which of the following has a 2 in the hundredths place?

- A 16.29  
B 18.32  
C 22.83  
D 539.2

16. A helicopter landing pad measures 11 meters wide and 15 meters long. What is the perimeter of the pad?

- A 26 meters  
B 52 meters  
C 165 meters  
D 2,475 meters

17. Norma measured the length and width of the placemat shown.

What is the area of the rectangular placemat?

- A 21 square inches  
B 42 square inches  
C 98 square inches  
D 108 square inches

18. The food pantry sets a goal of collecting 40 cans of food each day in November. There are 30 days in November. If the food pantry reaches its goal, how many cans of food will be collected during November?

- A 120
- B 1,200
- C 1,240
- D 12,000

19. Jorge saw that the clock hands formed an angle.

Which angle measure best describes the angle formed by the clock hands?

- A About  $45^\circ$
- B About  $90^\circ$
- C About  $180^\circ$
- D About  $360^\circ$

20. What is  $1\frac{3}{5} - \frac{4}{5}$ ?

- A  $\frac{1}{5}$
- B  $\frac{3}{5}$
- C  $\frac{4}{5}$
- D  $2\frac{2}{5}$

21. Peter wrote the following numbers in a row.

9, 16, 23, 30

If the pattern continues, what three numbers will come next?

- A 36, 42, 48
- B 37, 44, 51
- C 37, 42, 49
- D 42, 54, 66

22. Kylie has 4 shelves. Each shelf displays 7 trophies. Which number sentence shows how many trophies are displayed in the case?

- A  $4 \times 7 = 28$
- B  $4 \times 3 = 12$
- C  $7 - 4 = 3$
- D  $7 + 3 = 10$

23. A family membership at a museum costs \$85 per year. What is the total cost of 29 family memberships?

- A \$885
- B \$935
- C \$2,325
- D \$2,465
